SUMMARY

A seasoned frontend developer with almost 2 years of extensive experience in the IT industry, driven by a passion for crafting intuitive and user-centric web applications. Adept in HTML5, CSS3, and JavaScript, with a strong proficiency in ReactJS, TypeScript, Redux, and SASS. Possessing a solid understanding of agile methodologies and project management, accompanied by a proven track record of delivering top-notch software products within tight deadlines. Possessing exceptional communication and collaboration skills, with a proven ability to quickly grasp new technologies and adapt to changing requirements. Committed to leveraging my technical expertise, creativity, and attention to detail to deliver innovative and impactful web solutions.

WORK EXPERIENCE

Frontend Developer | Perculus | Turkey | Aug 2022 – Present

About Perculus: Helping trainers, instructors, and teachers to deliver more engaging, fun and collaborative training to achieve better learning outcome.

- Successfully developed and launched unique icebreaker activities for the company's product, resulting in a significant increase in sales and customer satisfaction.
- I elevated the development ecosystem of an internal library, enhancing its functionality and streamlining the process of constructing activities.
- I implemented optimizations to the library, elevating its performance and effectively elevating the efficiency of its usage.
- Utilized Git, GitLab, and GitHub for version control and code collaboration.
- Contributed to the growth of the company's product by creating activities that resonated with customers and helped to drive product sales.
- Improved product engagement and customer experience by creating interactive and entertaining icebreaker activities that received positive feedback from users.
- Demonstrated strong project management skills by delivering the tasks on time and within budget.

Fullstack Developer Trainee | Clarusway | USA(Remote) | Jan 2022 – Nov 2022

- Acquired proficiency in frontend development using HTML5, CSS3, JavaScript, and React
- Designed and developed interactive and responsive websites using HTML, CSS, SASS(SCSS), Bootstrap-5, and React libraries
- Utilized JS Dom manipulation and event listeners for HTML/CSS projects
- Implemented API requests using Async, Await, and Fetch for data retrieval from various platforms
- Proficient in using React-router, bootstrap, Axios, Tailwind, Material UI, Styled Components, and SASS/SCSS for building user-friendly websites
- Hands-on experience in state management using React States, Context API, useReducer, and Redux
- Adept at writing modular, reusable code, and familiar with build tools and package managers
- Gained expertise in computational thinking, operating systems, Linux, version control systems, and software development life cycle (SDLC)
- Worked in Agile methodologies, SCRUM, and JIRA in individual and group projects.

EDUCATION

Boğaziçi University

Graduate June 2018 (GPA 3.38)

Political Science and International Relations

Bachelor's Degree

TECHNICAL SKILLS

HTML5 | CSS3 | JavaScript | React.js | Next.js | Redux | SASS | SCSS | Bootstrap | Tailwind | Axios | Django | Yup | Python | Linux | SQL | Git | GitHub | Agile | Jira | SDLC | OOP | RESTful APIs | Typescript | ECMAScript | Node.js | Express.js | Django
